

Quality Bags and Wraps Since 1959

Paper Sustainability

The Pulp/Paper industry plants over one billion trees annually in North America. (American Forest & Paper Association, 2023)

Choosing recycled paper and supporting sustainable practices can make a positive impact on the environment.

At Stewart Sutherland, we understand we have an obligation to protect our planet. Here are some examples of our environmentally friendly practices:

- Recycling as many materials as feasible
- Maximizing usage and minimizing waste of materials
- Eliminating contaminants from entering the Eco-system
- Use of recyclable and biodegradable products

Summary

After more than 60 years in the packaging business, Stewart Sutherland knows what it takes to manufacture quality bags to support the many channels of our food industry. We supply a large variety of paper and foil solutions that wrap or hold nearly every product that today's consumers can count on.

Service

- We provide support to the Fast Casual, Convenience, Quick Food, Restaurant, Deli and Bakery channels and are set up with most major and independent distributors.
- Quick turnaround on quotes, designs, samples and any questions.
- Direct contact with representatives and manufacturers.
- Nationwide shipping.

Our People & Values

- We are a family and women owned business.
- Our people are our business. Our staff is what makes us a success.
- We strive to provide great service and are always looking for new methods and technologies to provide the quickest and most efficient service possible.
- Constantly working to help the environment and decrease our carbon footprint.

Why us?

Ultimately, we have positioned our company to be an extension of your company. We are here to become an integral part of your organization to support you, your teams, your stores and your customers. We are Stewart Sutherland and we are here for you!
